### FINAL ACTION

Applicant's amendment of 8-8-05 has been fully considered. The amended claims 16-18, 20, 21, 24, 25, and 51 have overcome the previous rejection 112/2<sup>nd</sup> paragraph by replacing the term "derivatising" or "derivatised" with "reacting" or "reacted", and by deleting the limitation of "R<sup>1</sup> and R<sup>2</sup> are the same as each other" as well as deleting the limitation of "R<sup>7</sup> and R<sup>8</sup> are the same as each other".

The deletion of "OCH<sub>2</sub>" from the definition of X in claim 16 has also overcome the previous rejection of 112/1<sup>st</sup> paragraph.

However, the amended process (a) in claim 16 has not overcome the previous rejection of 112/2<sup>nd</sup> paragraph. A telephone interview with Ms. Christine O'Day was conducted on 10-26-05 for a resolution to overcome said rejection, but no agreement could be reached due to applicant's unavailability.

Therefore, said rejection is maintained herein.

Claims 1-15 and 26-50 are cancelled.

Claims 16-25, and 51-53 are pending.

### *Claim Rejections - 35 USC § 112*

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 16-25, and 51-53 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The following reasons apply:

- a. Claim 16 recites the limitation of “*a compound capable of reacting at the primary amine group of the aminoalkyl moiety  $-(CH_2)_n-NH_2$* ” which has indefinite metes and bounds because it is not clear what structure said compound has. The specification lists 6 moieties or formulae that can react with formula II. However, it is not clear what other functional groups or moieties are intended by said limitation.
- b. Claim 16 also recites process (c) of “*optionally converting a compound of general formula I so formed into another compound of general formula I'*” which has indefinite metes and bounds because it is not clear which compound is converted into which.
- c. Claims 17-25 and 51-53 are rejected as being dependent on claim 16 and carrying over the indefinite limitation and/or the indefinite process (c).

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 1624

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

No pending claim is allowed.
